linkedin.com/in/krisshsoni | github.com/Krissh24

EDUCATION

Sardar Vallabhbhai Patel Institute of Technology (SVIT), Vasad
B.Tech in Information Technology (2023–2027) | **CGPA**: 9.04/10

EXPERIENCE

GDG Organiser – SVIT Chapter (2025–Present)
•Led chapter operations; organized HackFest 2026 (250+ participants)
•Shortlisted 40 teams (160 participants) via structured evaluation
AI/ML Lead – GDG (2024–2025).
•Conducted AI/ML workshops.
Technical Coordinator – SDC (2025)
•Coordinated BuzzTech 2025 businessathon (90-day product cycle)

PROJECTS

ML Highway vs Service Road Classification | Python
•Built ML model on GPS data; handled GNSS noise & geospatial features.
Reinforcement Learning Snake | PyTorch
•Implemented Deep Q-Learning with experience replay.
UniRide – Ride Platform | Firebase, FlutterFlow
•Built secure ride-request system with route filtering logic
PlimBiotech Website (Freelance)
•Developed and deployed responsive business website.

TECHNICAL SKILLS

Langauges:
Python, C++, Dart
Tools & Frameworks:
PyTorch, Firebase, FlutterFlow, Git
Core Concepts:
DSA, ML, RL, OOP, DBMS, OS

CERTIFICATIONS

Kaggle – Intro to ML
•Completed hands-on training in supervised learning, model validation, and basic feature engineering.
Kaggle – Data Cleaning
•Worked with missing values, data preprocessing techniques, and real-world dataset handling.
Acmegrade – Machine Learning
•Covered ML fundamentals including regression, classification, and practical implementation using Python.
